

Tutorial Lesson 2

- 1) Full name of HTML: HyperText Markup Language
- 2) Full name of CSS: Cascading Style Sheets
- 3) HTML IS a markup language, NOT a programming language.
- 4) JavaScript is a client-side programming language.
- 5) List THREE (3) types of CSS.
 - Inline CSS
 - Internal CSS
 - External CSS
- 6) Distinguish between HTML, CSS, and JavaScript.
 - HTML is to create the structure of the website, CSS is to design the website, and JavaScript is to add interactivity to the website.
